Important Information:

- The winning team is required to report the final score to the assigned Volunteer for their court.
- All teams are required to be ready and available for the next game to begin on their assigned courts. The times listed in the app are place holders and are not accurate. Games need to be played back to back in order for the tournament to run smoothly.
- If a team is repeatedly not reporting the score or needing to be tracked down consistently to play their games they may be flagged and **NOT** be able to participate in the tournament the following year.

Check-in:

All teams must be checked in and have waivers signed at check-in. We highly encourage you to have your waiver filled out prior to the festival. Any player under 18 must have a waiver signed by a parent or guardian. When teams check-in they should also know the size of participant shirts needed for their team. Bringing a COMPLETED WAIVER and shirt sizes will speed up the check in process FOR ALL.

Working:

Teams will be expected to work as line judges and scorekeepers. Teams must adhere to the schedule for the games they are scheduled to work. Teams will forfeit a game if they fail to work.

Parking:

Parking is available on site. Additional parking is available at Holland Woods Middle School in the back of our facilities.

NOTE: Girls 2030 & 2031 Divisions will need to park at Holland Woods Middle School.

Volleyballs:

If both teams agree to use a personal ball it is allowed. If both teams do not agree, teams must use the ball provided by Volleygrass

The Exposure App:

We encourage you to turn on your notifications and check messages as the app will be updated throughout the weekend. The schedule will also be posted to the app (a separate message will go out when the schedule is live). Times on the schedule will be place holders only. KEEP GAMES MOVING!! When one game is completed, the next game on the schedule will begin.
